Just about always, discussion of such a topic leads to proselytizing or irrelevant to this forum attacks on or defenses of religion, or we are treated, for instance, to explanations of why some "cult" errs in its beliefs--as if those beliefs were any less rational than any other religious beliefs, and as if it mattered at all to a linguistic discussion. Banks face the problem of finding new and innovative ways to manage big data as large amounts of information stream in from countless sources.
